INTRODUCTION

Statistics and Sport Analytics student at Rice University. Skilled in detail-oriented data analysis and visualization, with hands-on experience supporting strategy, performance tracking, and stakeholder communication. Excited to apply analytical skills to quantify and predict decision outcomes while leveraging new technologies for human-centered impact.

EDUCATION

Rice University

B.S. Statistics, B.A. Sport Analytics

Houston, TX

Aug 2025 - Present

University of California, Los Angeles (UCLA)

B.S. Statistics and Data Science

Los Angeles, CA

Sept 2024 - Jun 2025

WORK EXPERIENCE

Carnegie Mellon University Sports Analytics Camp

Incoming Undergraduate Researcher

Pittsburgh, PA

Jun 2026 - July 2026

- Fully funded research experience in sports analytics research, mentored by Dr. Karim Kassam of Teamworks
- Built a multi-stage XGBoost/LASSO modeling framework using NFL player-tracking data to predict screen pass occurrence, direction, and target receiver group, and quantified each team's pre-snap screen predictability

Velocity Baseball Inc.

Research & Development Intern

Lorton, VA

Jun 2025 - Present

- Created a RShiny app with interactive scatterplots, leaderboards, and histograms to track key pitching metrics
- Collaborated with high school, collegiate, and professional athletes to integrate their insights into analytical tools
- Analyzed 8,000+ Trackman data rows in R to identify performance trends and support strategic bullpen decisions

Rice University Baseball

Baseball Analytics Team Member

Houston, TX

Aug 2025 - Present

- Integrated pitcher data with KNN-based pitcher similarity model to inform Rice hitters' game-planning insights
- Operated multi-angle video cameras and pitch-tracking equipment to collect high-quality bullpen, practice, scrimmage, and game data supporting player development and the coaching staff's analytics workflows

UCLA Baseball, Bruin Sports Analytics

Data Consultant

Los Angeles, CA

Oct 2024 - Jun 2025

- Built 3D pitch trajectory visualizations from hitter, baseline, and pitcher perspective views to inform scouting
- Standardized conference-wide Trackman datasets for Google Cloud-based storage and analytics applications
- Collaborated with coaching staff on analytics projects and scouting supporting a successful conference transition

AWARDS/SKILLS

- Federal Reserve Bank of Dallas Externship (2026):** Presented data-driven recommendations on maximizing employee satisfaction through survey design and dashboard reporting to lead analysts and staff
- Room Winner, Syracuse Basketball Analytics Competition (2026):** Leveraged Sports Info Solutions NBA data and clustering techniques to evaluate expansion draft targets, project salary allocations, and construct competitive lineups, earning recognition as 1 of 3 room winners judged by sport analytics professionals
- Room Winner, SABR Analytics Conference (2026):** Utilized a Markov Decision Process and Gaussian Mixture Modeling to determine optimal situational hitting contexts, presented findings to MLB analysts
- Second Place, Rice x Syracuse Baseball Analytics Competition (2025):** Conducted statistical analysis to complete baseball data challenges, advanced to final presentation and placed 2nd from an initial pool of 14 teams
- Skills:** R, Python, Trackman, Tableau, SQL, Database Querying, Tableau, Data Storytelling, Project Management
- Interests:** Violin, family-reunion basketball power forward, trail running across SoCal and northern Italy

ADDITIONAL EXPERIENCES

Washington Nationals

50/50 Jackpot Fundraising Representative

Washington, D.C.

Jun 2025 - Aug 2025

- Engaged fans by clearly communicating the Nationals Philanthropies' mission while fostering community support
- Managed sales reconciliation and financial reporting, ensuring accurate cash-handling and an efficient game-day
